HIGHLIGHTS

Integrated Lighting Campaign Launches at 2019 Better Buildings, Better Business Awards

The Integrated Lighting Campaign at the 2019 Better Buildings, Better Business Awards was held on June 18th and the first of a series of awards ceremonies held this week focused on achievements in the business sector. The event was hosted at the Business Building in Washington, D.C. and featured keynote speeches from government officials, business leaders, and organizations. The campaign is focused on promoting the benefits of integrated lighting solutions, which can help businesses save money and improve energy efficiency.

Newly Released Recognition Categories for Integrated Campaign

A key focus of the 2019 Better Buildings, Better Business Awards is the introduction of new recognition categories to recognize the achievements of businesses that have implemented integrated lighting solutions. These categories include "Energy Efficiency Leader," "Green Business Leader," and "Innovative Lighting System." The awards ceremony was held on June 18th at the Business Building in Washington, D.C., and featured keynote speeches from government officials, business leaders, and organizations. The event was hosted at the Business Building in Washington, D.C., and featured keynote speeches from government officials, business leaders, and organizations.

Integrating Lighting Campaign Supports the IECC: Upgrading our Lighting Challenge

A key goal of the IECC is to help businesses and governments achieve the maximum level of energy efficiency and sustainability. The campaign promotes the use of integrated lighting solutions that combine lighting systems with other building systems, such as heating, ventilation, and air conditioning. The campaign also promotes the use of energy-efficient lighting technologies and the adoption of best practices for energy management. The campaign is supported by a wide range of organizations, including government agencies, businesses, and advocacy groups.
